WORD   EXCEL   PDF   HTML   and More…

Distribute reports in PC formats… *automatically and electronically*!

In a single step, reports can be delivered to PCs, LANs and WANs or EMAILed anywhere! Reports arrive in PC document formats such as WORD, EXCEL, HTML, and PDF.

by*REQUEST*™ simplifies the process of sectioning, bursting, printing, formatting, delivering and archiving reports.

Place reports on your LAN!
Reports can be 'tossed' onto Windows servers or PC clients in any of the formats just mentioned ... *instead* of being printed.
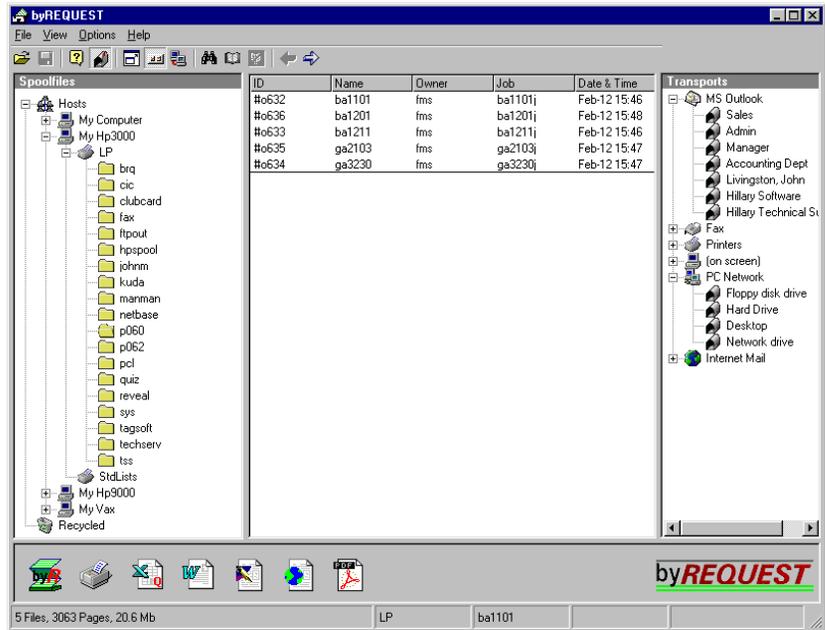

Your users can now search, browse and print just the pages they need.

by*REQUEST*™ gets your users just what they want, when they want it, in useful formats they understand!

‣ **Create Microsoft WORD documents in a single step!**
‣ **EXCEL formats supported**
‣ **Adobe ACROBAT's PDF and HTML formats supported for browsing, viewing and WEB publication and distribution**
‣ **Electronically 'burst' and distribute reports by section**
‣ **EMAIL with Address Books**
‣ **Print to NETWORKED printers**

To download the by*REQUEST*™ demo and view the latest technical details… visit our web site at **www.hillary.com**

View reports

Select, filter, organize and deliver reports to attached LAN's, FTP servers or …EMAIL anywhere!

Reports arrive in PC formats!

Name	Size	Type	Modified
